

**GOLDCREST
SOLUTIONS**

4 Reasons why Microsoft Dynamics CRM is the best customer management solution for your company

Extendable Technology

Microsoft Dynamics CRM has been build on .NET technologies. This means that whatever the business requirements, we at Goldcrest solutions are experts in developing CRM to meet customers business needs.

Integrations

Whether integrations are needed to your accounts system, telephone network, on SharePoint, email marketing systems, web sites, call centres or postcode; Microsoft CRM can do them all.

Choice of Deployments

CRM can be run from a browser, on premise or hosted, within Outlook or enabled on a Blackberry or PDA; so that you are never far from your customer data.

Microsoft Look and Feel

CRM Looks and Feels like other Microsoft applications, and with a very minimum amount of training, users can be au fait with CRM in no time.
